

Naming

“Just-Test”

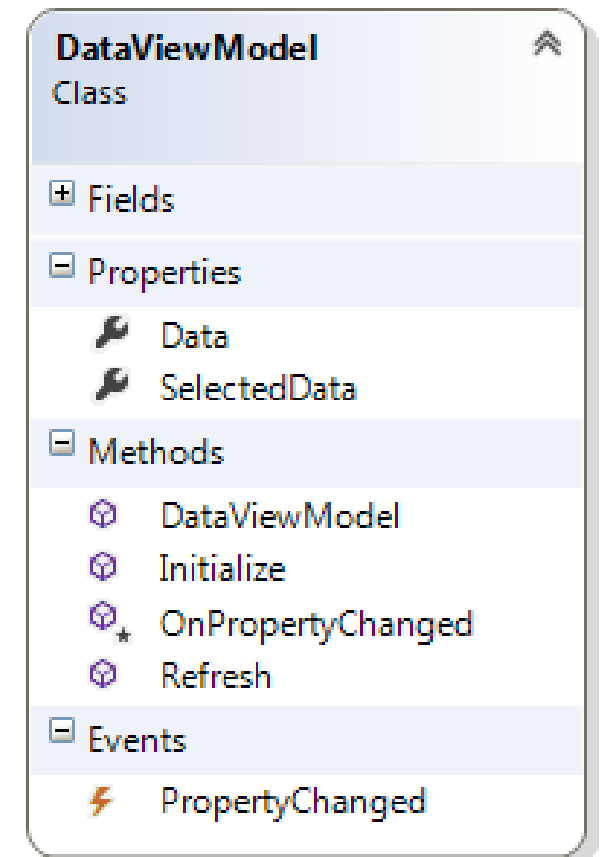

```
[TestClass]
public class DataViewModelTests
{
    [TestMethod]
    public void RefreshTest()
    {
    }
}
```

“Just-Test”

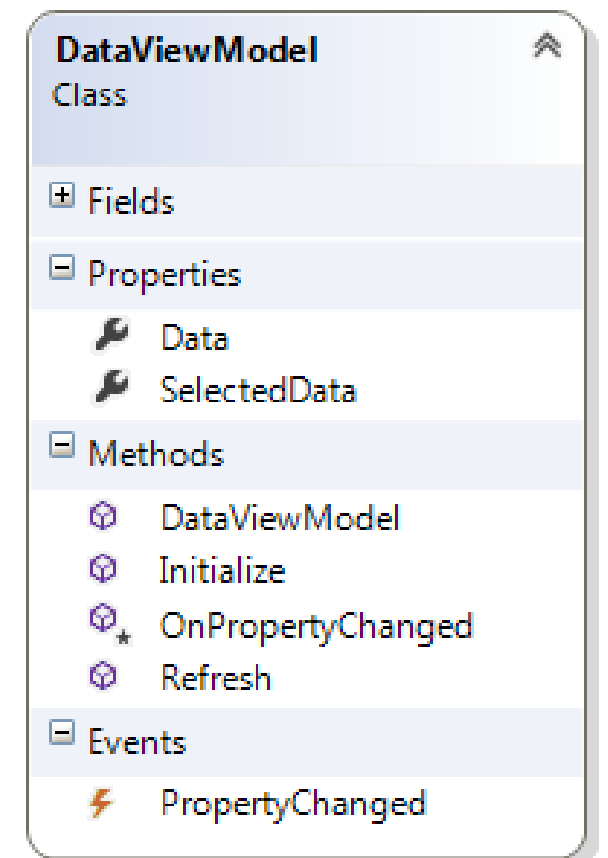

```
[TestClass]
public class DataViewModelTests
{
    [TestMethod]
    public void RefreshTest1()
    {
    }

    [TestMethod]
    public void RefreshTest2()
    {
    }
}
```

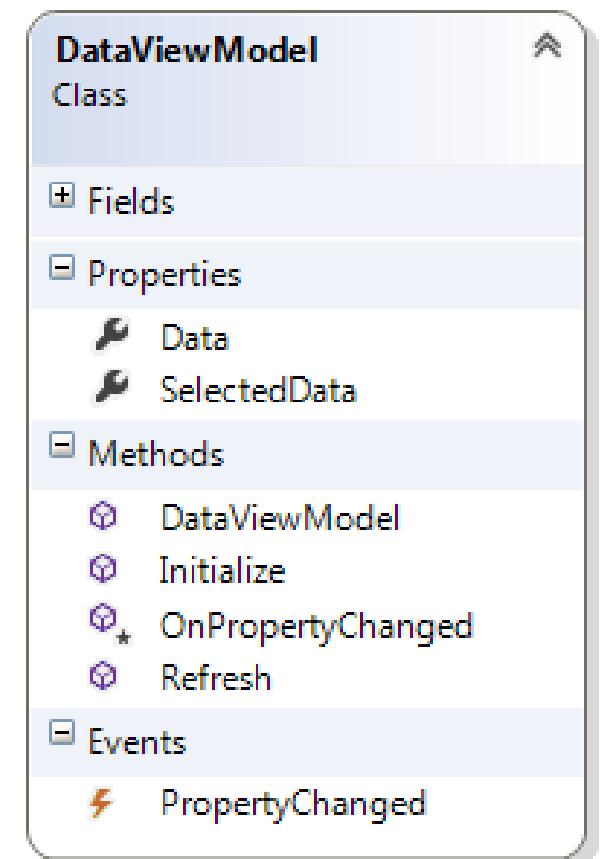

“Detailed”

```
[TestClass]
public class DataGridViewModelTests
{
    [TestMethod]
    public void Initialize_NoValidateDate_ThrowsException()
    {
    }
}
```

“Requirement”

```
[TestClass]
public class DataViewModelTests
{
    [TestMethod]
    public void ShallNotSelectAnyItemsOnStartup()
    {
    }
}
```

Names must be...

- self-explanatory
- Summarize the “idea” of a test
- Changed if the test changes
